EDUCATION

Btech in Computer

Engineering, Presidency

University, School Of Engineering

08/2018 – 08/2022

Bangalore, India

- Cumulative GPA: 8.7/10

SKILLS

Language & Tech Stack

Python, Javascript, Owl js, XML, HTML, CSS, SQL, Data Structures & Algorithm, Flask, Linux, Github, AWS, Excel, Rest Api, Django, Odoo 13 - 17

ACHIEVEMENTS

- Conducted initial training and local setup Environment for interns, addressing their queries effectively
- Consistently met deadlines and received commendations from management for exceptional performance and timely task completion.
- Successfully completed 300+ tasks and actively contributed to multiple open-source projects.

Professional Experience

Odoo Python Developer, Fidelis

08/2024 – present | Bangalore

- Developed dynamic **purchase reports using OWL JS** components, built custom salary rules including **TDS auto-calculation based on old/new tax regimes**.
- Integrated third-party APIs to enable **e-Invoice and e-Way Bill generation** directly from Odoo.
- Developed a **custom onboarding workflow** involving multi-step approvals and designed reusable **field widgets** to enhance form interactivity and validation
- Built a complete **custom target-setting module** for employee KPIs and extended Odoo Survey with custom form rendering, dynamic questions, and enhanced **kanban/form views** for management tracking.
- Led end-to-end development and support for **client projects**, focusing on heavily customized business modules.

Odoo Python Developer, At Sdwot

04/2023 – 07/2024 | Hyderabad

- Designed and development of **supply chain** software solution, to replace an **outdated system** and reduce manual workflow by 90% and Provided comprehensive training and support to endusers resulting in a **100% satisfaction** rate among end-users.
- Developed and customized **Qweb** templates using **Html, Css** to meet diverse client **specifications**, Utilized **PostgreSQL** for efficient CRUD operations and integrated data in the UI using grid view for enhanced user experience.
- Integrated Firebase external **API** to enable real-time notifications upon internal user **login** to the company website, enhancing user engagement and facilitating timely communication within the organization.
- Experienced in leveraging **Odoo Erp** to enhance operations across **manufacturing, retail, and trading** sectors.

Projects

KPI Sales Dashboard | (Odoo17, Python, JavaScript, XML, ApexCharts, PostgreSQL)

- Designed and developed a custom **KPI Sales Dashboard** in Odoo to provide visual insights into business performance.
- Integrated **various interactive charts** (bar, pie, line) to display key sales metrics including Top-Selling Products, Monthly Sales Trends, Top Salespeople and **Top Customers by Revenue**
